Learn more about the significant changes to the Americans with Disabilities Act (ADA) which came into effect in January 2009, and find out what regulations have been proposed by the EEOC to interpret those amendments. These amendments have drastically expanded the coverage of the ADA, including ***which employees are entitled to reasonable accommodations***. The proposed regulations would clarify ***who is a person with a disability***, including changing ***how an employee shows that she is significantly limited in her ability to work***.

Registration and lunch is \$20 for LERA members and \$25 for others.

Make reservations by noon **Friday, March 5:**
